Banyan Drive Treatment Plans and Map Key

Treatment Plan

Three different treatment plans will be utilized for this project, each of which has been assigned to a specific tree and is color coded (see Table 1 below). Treatments will be administered six months apart with each tree receiving a total of four treatments. The treatments are to be applied in sequential order along Banyan Drive, beginning with the trees on the Mauka side of the street, followed by the Makai side (i.e., trees #1, 4, 7 would be treatment 1, trees #2, 5, 8 would be treatment 2, etc.) The color codes in Table 1 correspond with those on the provided Banyan Drive Treatment Map. (please see attached map).
